Objectives

A motivated and detail-oriented Frontend Developer with strong technical skills in building responsive, user-friendly, and efficient web applications. Passionate about solving real-world problems through clean and efficient code, and eager to apply my knowledge in a collaborative environment that encourages learning, innovation, and continuous professional growth.

Education

Lagos State University (LASU) (2023- 2027)
▸ Bachelor's Degree in Computer Science

D'Solid Crystal Academy (2016- 2022)
▸ WASSCE(West African Senior School Certificate Examination)

Technical Skills

▸ **Languages:** HTML, CSS, JavaScript, C++
▸ **Frameworks & Libraries:** React.js, Next.js, Bootstrap, Framer-motion, Chart.js
▸ **Styling:** SCSS, CSS, Bootstrap
▸ **Backend/Service:** Firebase(Database)
▸ **Tools:** Github, VS Code, Git
▸ **Responsive Design:** Flexbox, CSS grid, Mobile-first design

Projects

▸ **Budget Tracker Web Application:** A personal web application designed to help users manage their income and expenses efficiently. Users can add, delete and track financial transactions.
  Built using: SCSS, React.js

▸ **Job Search Platform(Collaborative Project – Work in Progress):** A collaborative project built with a backend developer to simulate a real-world recruitment system. Admins can post and manage job listings. Users can view and apply for jobs
  Built using: SCSS, React.js

▸ **Personal Portfolio Website:** A responsive personal portfolio website showcasing my skills, projects and contact information.
  Built using: Next.js, SCSS, Email.js

▸ **Bible Study Question & Answer Website:** A full-stack web platform that allows users to submit and view Bible-related questions. Admins can respond to questions and manage content.
  Built using: Next.js, Firebase(Database)

▸ **Frontend Mentor-Product Listing with Cart Challenge:** A functional shopping cart application with add/ remove item functionality and real-time calculation. Fully responsive design
  Built Using: HTML, CSS, JavaScript
